

15° Congreso Internacional de Patología y Recuperación de Estructuras

Primeras Jornadas Internacionales de Estudiantes Investigadores

Universidad Nacional de Salta
23, 24 y 25 de Octubre

Dear Professor/ Colleague,

It's our pleasure to announce our forthcoming event: CINPAR 2019 - XV International Conference on Building Pathology and Construction Repairs and I International Student Researchers' Conference, to be held in Salta, Argentina, from 23 to 25 October 2019. CINPAR is intended to be an international forum for engineers, students, researchers and other professionals to explore, discuss and communicate recent developments of the aforementioned topics. For the first time, students will be allowed to submit and present papers of their authorship.

The conference will focus on the following topics:

- T1 Non-destructive and destructive tests for structures diagnosis
- T2 Rehabilitation techniques and structures repair
- T3 Pathological manifestations in concrete buildings
- T4 Durability and materials (repair materials, innovative materials, sustainable materials).
- T5 Historical heritage
- T6 Management and Standardization

This event is aimed for students, technicians, technologists, engineers, architects, organizations and researchers.

This advance information takes the form of brief factual descriptions. Soon you will be receiving further news. You can check the congress page: www.cinpar2019.website

We will appreciate information dissemination to the widest possible extent among members of the academic and scientific fields.

Salta, September 20, 2018.

Sincerely,

LOCAL ORGANIZING COMMITTEE
